

Please ensure that each day you are checking ClassDojo for today's set activities. Every day we will update (by 9am) with 4 activities to be completed each day.

These activities will consist of:

1. **Reading a book on Active Learn.** Your login details can be found at the front of your learning journal but if you have misplaced please get in contact with your class teacher via DoJo message.
2. **A spelling and grammar activity.** This will be accessed via a shared link or as activity set on Active Learn to be completed. It might also be a set of spellings for you to practise.
3. **Maths Problem of the Day.** This will need to be recorded in your Home Activities book. Please title each day with the date and problem number (found in the top right hand corner) and answer the questions using the question numbers. There is no need to print off the questions.
4. **An activity related to telling the time.** This may take the form of a set Mathletics activity or a practical task. Your Mathletics login details can be found at the front of your learning journal. (If you have misplaced them, please get in contact with your class teacher via DoJo message). All Year 2 children need to be confident in telling the time to 15 minute intervals (quarter past, half past, quarter to and o'clock). They need to be confident with **analogue** time telling (not digital). For those children who do become quickly confident with this, move on to telling the time to 5 minute intervals (5 past, 10 past etc.)

In addition to this, each week we are not in school (excluding the Easter Holidays) we will send 1 additional topic related activity. This might be History, Geography, Science or RE. This activity will be shared each Monday morning and details about how to record it in your home activity book will be made clear, alongside any addition resources we think you will need.

Throughout our time off school, we will be doing our best to keep in touch with you and communicate ideas to support education at home. We appreciate that you may find it difficult to share things with us during this tricky time but we will be monitoring the use of Mathletics and Active Learn, as well as collecting in home activity books on our return to school.

If there are any queries about the home activities, or you would like further extension activities, please do get in touch with you class teacher via DoJo message. You can find the key learning objectives for year 2 on pages 26 - 29 of your child's learning journals. Any additional work you would like to do towards these would be very beneficial.

There are some great resources available online and these can be found:

## PE

We all know how important it is for our physical and mental wellbeing to engage in regular exercise. While children are at home, why not try some of the following exercise sessions created especially for children (you could even join in the fun!).

### **HIT Training**
