

Computing encourages pupils to use logical reasoning to predict the behaviour of simple programs.

Computing encourages pupils to develop a richer digital literacy experience, as they document what they know and learn for others through blog posts, audio recordings etc.

Computing nurtures pupils' collaboration skills, as they work together and support one another in their learning.

Computing develops pupils' skills in using technology to create, organise, store, manipulate and retrieve digital content.

Critical thinking and analytical skills are developed through computing.
