

## PE Intent

We aim to deliver a high-quality, ambitious physical education curriculum which inspires all pupils to develop a lifelong love of learning.

Participation in competitive sport and other physically demanding activities helps to empower resilience and compassion.

It provides opportunities for pupils to become physically confident in a way which supports their spirit and self-worth.

Opportunities will be given across the school to compete in a wide variety of sporting events through which we intend to build inspiring, ambitious leaders and team players.
